

ANANDA GAUTAMA SEKAR KHOSMANA

North Jakarta, Indonesia | anandagautama3112@gmail.com | +62 812 9005 1670 | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Information Systems undergraduate with hands-on experience in full-stack software development, backend engineering, cloud deployment, and AI integration. Experienced in building production-oriented web applications using Next.js, FastAPI, PostgreSQL, Docker, and modern authentication and API architectures.

EDUCATION

Universitas Indonesia

Bachelor of Computer, Information System, Faculty of Computer Science

2024 - Present

- Current GPA: 3.78/4.00

EXPERIENCE

Universitas Indonesia - Faculty of Computer Science

Universitas Indonesia, Depok

Teaching Assistant, Platform-Based Programming (Django & Flutter)

Jul 2026 - Present

- Supervised Django and Flutter laboratory sessions, helped students debug applications, and reviewed assignments for correctness and code quality.

Teaching Assistant, Programming Foundations 2 (Java)

Jan - Jun 2026

- Supported Java practicums covering object-oriented programming, data structures, and software design. Reviewed assignments and provided implementation feedback.

BEM FASILKOM UI - Business and Partnership Bureau

Universitas Indonesia, Depok

Deputy

May 2026 - Present

- Managed and maintained multiple organizational platforms, including the main website, Best Staff, Issue Tracker, and iMaba.
- Collaborated with internal and external clients to understand project requirements and deliver suitable software solutions.
- Led and mentored software engineering staff through technical guidance, knowledge sharing, and project supervision.

COMPFEST - IT Development Division

Universitas Indonesia, Depok

Expert Staff, Software Engineer

Mar - Sep 2026

- Developed leaderboard and spin wheel features designed to efficiently process data-intensive queries for event participants.
- Built a mobile-only QR scanner feature for merchandise point redemption during the main event.

Software Engineer Staff

Apr - Sep 2025

- Developed Academy and Competition landing pages and the Main Event registration flow, translating event requirements into responsive interfaces.

PPMB KMBUI - IT Development Division

Universitas Indonesia, Depok

Staff

May - Jun 2026

- Built the responsive event landing page, Kalyanamitta peer-connection page, and FOSSIB orientation assignment submission page.

DDP0 - IT Development Division

Universitas Indonesia, Depok

Staff

Jun - Sep 2025

- Developed the program landing page and maintained its operational dashboard.

PROJECTS

MataKota Jul 2026

Full Stack Engineer | Garuda Hacks 7.0

- Developed MataKota, an AI-powered public safety operations platform integrating incident monitoring, geospatial crime-risk analysis, evidence management, personnel coordination, and AI-assisted intelligence.
- Built the application using Next.js, TypeScript, tRPC, FastAPI, Prisma, PostgreSQL/PostGIS, Better Auth, Mapbox GL, Deck.gl, Turf.js, ECharts, and Cloudinary.

fiorisce.id Jun 2026

Full Stack Engineer | Bakti Champions Movement

- Developed an e-commerce platform for Fiorisce Floristry, implementing product discovery, online ordering, and authentication workflows.
- Built the application using Next.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM, and NextAuth.js.

Rantai Skena Nov 2025

Full Stack Engineer | BudayaGO! 2025

- Developed a community platform for Indonesia's independent music ecosystem, with responsive interfaces and conversational features using Next.js, React, Tailwind CSS, shadcn/ui, and assistant-ui.
- Built backend services with Hono, Drizzle ORM, PostgreSQL, and Better Auth in a Turborepo monorepo with shared database and authentication packages.

Ijtihad Aug 2025

Full Stack Engineer | GEMASTIK XVIII 2025

- Integrated AI-assisted halal detection, gharar and maysir assessment, and contextual question answering based on Islamic references.
- Built the system using Next.js, FastAPI, PostgreSQL, Redis, Firebase, Tailwind CSS, and Google Gemini.

SKILLS

Languages	Java, TypeScript, JavaScript, Python, Dart, SQL
Frontend	React, Next.js, React Router, Tailwind CSS, shadcn/ui, Flutter
Backend	Node.js, NestJS, Hono, Express.js, Django, FastAPI, tRPC, REST API
Databases	PostgreSQL, Redis, PostGIS, Prisma ORM, Drizzle ORM
DevOps & Tools	Docker, Docker Compose, Git, GitHub Actions, CI/CD, Linux, Swagger/OpenAPI
AI	Google Gemini, RAG, Vector Retrieval, Prompt Engineering

ACHIEVEMENTS

TOP 20% of Garuda Hacks 7.0 2026 International

Issued by Garuda Hacks Jul 2026

- Ranked among the top 20% of 159 project submissions from 608 participants.

Bakti BCA Scholarship Awardee 2026 National

Issued by PT Bank Central Asia Tbk (BCA) Jan 2026

- Participated in the Bakti Champions Movement.

TOP 50 of BudayaGO! Indonesian Cultural Digital Innovation Competition 2025 National

Issued by Ministry of Culture of the Republic of Indonesia Nov 2025

- Among 627 competing teams, secured a place in the Top 50 during the preliminary stage.

ADDITIONAL

Spoken Languages: Indonesian, English

Certifications & Training: Software Engineering (RevoU).
